saitejas.8192@gmail.com — +91 8660057981 — LinkedIn — GitHub

SUMMARY

Artificial Intelligence & Machine Learning undergraduate with strong interest in software development and intelligent systems. Experienced in building full-stack applications and eager to contribute technical skills in a professional environment.

TECHNICAL SKILLS

Programming Languages: Python, C, C++, JavaScript

Development Tools: Git, Docker, Visual Studio Code

Operating Systems: Windows

Other Skills: Debugging, Testing, Adaptability, Quick Learning

PROJECTS

DocuSpark – Academic Document Intelligence Platform

MongoDB — React.js — Node.js

- Developed an AI-powered academic document management system.
- Implemented semantic search for context-aware document retrieval.
- Built RESTful APIs and optimized MongoDB queries using indexing.
- Designed modular backend architecture for scalability.

Construction Management System

React.js — Node.js — Express.js — MySQL

- Developed a full-stack web application to manage projects, tasks, employees, and payments.
- Designed normalized relational database schema ensuring data integrity.
- Implemented authentication and complete CRUD operations.
- Built dashboard for real-time data management.

CERTIFICATIONS

- AWS Cloud Foundations – AWS Academy
- AWS Associate – System Architecture (Learning)
- Advanced Python
- Artificial Intelligence fundamental - IBM SkillsBuild

EDUCATION

Jyothy Institute of Technology, Bangalore

2023 – Present

Bachelor of Artificial Intelligence & Machine Learning

CGPA: 8.5

Sadhana PU and Degree College, Bangalore

2021 – 2023

PUC – PCMC

Percentage: 88.6%

Vijaya Bharathi Vidyalaya, Bangalore

2020 – 2021

State Board

Percentage: 89.12%

EXTRACURRICULAR ACTIVITIES

NCC

- Developed leadership and teamwork skills through structured training.
- Engaged in community service initiatives including volunteering at “Chigru”.
- Improved discipline and physical fitness through parades and drills.
